

# Live quiz announcement

Lecturer who conducts a live quiz can make announcement to the students when they are sitting for the online quiz. For the example scenario, the lecturer is conducting an online quiz for 1 hour while the quiz is still running. There are some question mistakes, and the lecturer wants to make an announcement about changing the question. The lecturer can use this function.

To Enable and make an Announcement to student, Lecturer can follow the step below

## Enable Quiz Live Announcement

1. go to Quiz settings
2. go to Live Announcement
3. Click Enable Live Announcement
4. Set announcement polling interval
5. Set announcement header

## Make Announcement

1. Click the quiz that already enables the live announcement function
2. Click add or manage the announcement
3. Put in your announcement text to announcement content
4. Click add new announcement
