

Setup Safe Exam Browser

Below is the step to add Safe Exam Browser into the quiz in eLearning Platform.

1. Add quiz module using "Add activity or resource" in course page.
2. Fill in the require field in quiz setup.
3. On the Safe Exam Browser section, select "Require the user of Safe Exam Browser" to "Yes - Configure manually".
4. Then set other option in the section to default as below:

▼ Safe Exam Browser

Require the use of Safe Exam Browser	<input type="text" value="Yes - Configure manually"/>
Show Safe Exam Browser download button	<input type="text" value="Yes"/>
Show Exit Safe Exam Browser button, configured with this quit link	<input type="text"/>
Ask user to confirm quitting	<input type="text" value="Yes"/>
Enable quitting of SEB	<input type="text" value="Yes"/>
Quit password	<input type="text" value="Click to enter text"/>
Enable reload in exam	<input type="text" value="Yes"/>
Show SEB task bar	<input type="text" value="Yes"/>
Show reload button	<input type="text" value="Yes"/>
Show time	<input type="text" value="Yes"/>
Show keyboard layout	<input type="text" value="Yes"/>
Show Wi-Fi control	<input type="text" value="No"/>
Enable audio controls	<input type="text" value="No"/>
Enable spell checking	<input type="text" value="No"/>
Enable URL filtering	<input type="text" value="No"/>

5. Then click "Save and return to course" or "Save and display" to finish the setup.
